

# STANDARD SIDE DUMP BUCKET

THE RIGHT CHOICE FOR JOBSITE VERSATILITY.

## Congested jobsites: Conquered!

Working in tight spaces and congested work sites can be a challenge for many operators. The Rockland Side Dump Bucket generates the flexibility to load and unload safely when working in applications such as highway construction sites, trenches, roadways, and tunnel construction. Reduce excess loader travel and lost time by simply pulling beside the truck or trench to dump sideways.

The dual-cushioned dump cylinder allows for a quiet, controlled lateral dump. The hydraulic lockout cylinder prevents unwanted bucket movement when the dump cylinder is not engaged, making it ideal for conventional unloading or working on rough terrain. This can be controlled from inside the cab, eliminating the need to get out of the cab!

## Specifications

CATEGORY	RATED SD CAPACITY (YDS)	DUMP ANGLE (DEG)	WEIGHT (LB)	WIDTH (IN)
20	1.25	45	2,270	112
20	1.50	45	2,730	112
20	1.75	45	3,135	112
20	2.00	45	3,545	112
30	1.75	45	3,150	118
30	2.00	45	3,725	118
30	2.25	45	3,830	118

60	4.25	45	5,290	142
60	4.50	45	5,535	142

## Exclusive Features and Benefits

- Easily load and unload in confined areas
- Dual-cushioned, Rockland built cylinders provide safe, smooth, and quiet operation
- Hydraulic lock prevents the bucket from moving when dump cylinder is not engaged
- Center-mounted lift hook is standard
- Left-hand dump is standard. Right-hand dump is available upon request
- Equipped with heavy duty, reversible bolt-on cutting edges
- Available in coupler or pin-on configurations

\*Specifications subject to change without notice.

 Proudly Made in USA

## WARRANTY

Rockland Side Dump Buckets are guaranteed against failure due to defective design, materials or workmanship for a period of two years or 4000 hours.
